In reference to our telephone conversation this morning, the Onan Model EC-57R, 220/380-volt Electric Generating Plant will start a 7½ horsepower fan motor of Code "A" through Code "H" using across the line starting methods. For motors of Code "J", "K", or higher, a larger plant will be required to start the motor.

The above information was given me by [redacted] of our Engineering Department. 25X1
